

Hot solutions

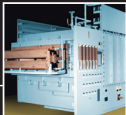

for your thermal processes. HARPER

INTERNATIONAL

Harper International provides customized processing systems requiring precise control of atmosphere, temperatures and kinetics. Our engineers can help optimize your solution while minimizing capital and operating costs. The Harper Technology Center provides process development to optimize scale-up. With custom engineered systems throughout the world, Harper engineers have the expertise to deliver state-of-the-art technology to meet the unique needs of your application. Contact Harper International at (716) 684-7400, ext. 189 or visit our web site at www.harperintl.com.
